IEA Recommends Laiacona in 40th Illinois House Race

The Illinois Education Association is recommending Joe Laiacona for the Democratic nomination for Representative in the 40th Illinois House district.

“Joe Laiacona supports equalized funding of public schools so that every child, no matter where he/she lives, has access to a safe school properly equipped to provide a high quality education,” said Arvis Averette, president of the Part-time Faculty Association of Columbia College.

“On pension reform, Joe Laiacona believes that fiscal discipline is needed to make the required yearly payments for the benefits earned each year. The pensions need to be structured so we keep our promises to state employees and secure Illinois’ fiscal health,” Averette added.

The Illinois Education Association is the state’s largest education employees’ organization, representing more than 133,000 teachers, education support professionals, higher education faculty, staff and graduate assistants, retired education employees and students preparing to become teachers.

IEA is an affiliate of the 3.2 million member National Education Association.
